April 1, 2019

To: Madison County School Board Members

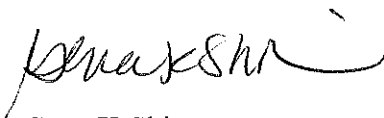

From: Gena Shiver, Madison Education Assn Credit Union

The Credit Union was established to help employees of the School System with their savings and loan needs. This Credit Union is a non-profit organization to service all employees of the School Board and surrounding education facilities. We have been a service to your employees since 1963. At the time the Credit Union was established the School Board made an agreement (not sure if it was a verbal agreement or handwritten) that the School Board would furnish office space for the Credit Union. We have appreciated the School Board offering this to us for all these years as we are a non-profit with a very limited budget. As of April 1, 2019, the Credit Union would like to ask the School Board to consider possible negotiations of the following new agreement as an offer for the Credit Union for their office space:

1. Payment of all Utilities
2. Supply all supplies (i.e., tissue, paper towels, cleaning supplies, etc)
3. Clean the Office (the School Board would not have to hire someone to clean)

The Credit Union would also like to ask that if the building should ever come up for sale that the Credit Union would have First Right of Refusal, since we are a service to the School Board employees and their families, also other local education employees and their families.

Thank you for your consideration.

Gena K Shiver
